## President's Letter by Barry N. Heimlich

Dear Broward Audubon Member:

I hope you had an enjoyable summer. Your board of directors has been busy all summer planning an exciting year for 2003-2004. With new leadership and a new focus on reinvigorating our chapter, we are planning an enhanced schedule of programs, activities, and events. Our most ambitious undertaking is the first annual Everglades BirdFest in January, 2004.

**In order to have a more accessible meeting place, we are relocating to South Plantation High School (SPHS).** Centrally located in Plantation near I-595 between US441 and University Drive, we will be using the high school's media room. SPHS is the site of the county's magnet study program for Environmental Studies and the Everglades. We look forward to working synergistically with the teachers and students of this unique program.

We are planning an outstanding program of speakers and activities. Ten meetings are planned through May with speakers on birding techniques, migration, community outreach, endangered species, butterflies, and sea turtles. The programs are coordinated with our field trips. In addition to some of our favorite hot spots like Loxahatchee, Birch SP, the Everglades, and Corkscrew Swamp, we are planning trips to Jonathan Dickerson SP and Fort DeSoto. **(President's Letter Continued On Page 2).**
